

**CITY OF LINCOLN/LANCASTER COUNTY
invites applications for the position of:**

Facilities Operations Coordinator

SALARY: \$69,336.80 - \$94,498.56 Annually

OPENING DATE: 06/19/21

CLOSING DATE: 07/11/21 11:59 PM

JOB POSTING INFORMATION:

This is responsible technical, supervisory work directing the operation of large secondary and advanced wastewater treatment facilities. Work involves responsibility for assisting with the supervision of administrative, management, and process operations of the City's wastewater treatment facilities, including process control, solids handling, odor control, disinfection, liquid waste receiving and other related facilities and activities. An employee of this class exercises considerable independence in developing and is responsible for implementing operational plans, programs, and process control strategies and methods adopted for the water resource recovery facilities.

Qualifications: Bachelor's degree with major coursework in environmental science, environmental engineering, biology, chemistry, or related fields, and 4 years of experience in the operation and maintenance of a wastewater treatment plant including 6 months of experience in a supervisory capacity; or any equivalent combination of training and experience.

Necessary Special Requirements: Possession of a valid Nebraska Class IV Wastewater Treatment Plant Operator Certification or equivalent certification from another State recognized or reciprocal with Nebraska.

Possession of a valid driver's license when operating a vehicle is necessary to the satisfactory performance of assigned duties.
