

DESIGNING FOR OPERATIONS

HOSTED BY: NWEA/NSAWWA YOUNG PROFESSIONALS

Wednesday June 3, 2026
from 12:00 to 1:00 pm CST

Designing for Operations

Project and system design must be accomplished with long-term operations and the end-user in mind. Understanding an owner's operational culture, capabilities, and priorities is essential to delivering a design that meets the owner's goals. This presentation will discuss the various aspects of operations for plants and systems, including:

- Operational Mindset
- Understanding the Operators
- Big-picture Design Considerations
- Maintenance & Reliability
- Startup & Commissioning
