Water/Wastewater EIT
HDR

Samantha Corey, P.E.
Water/Wastewater Engineer
Olsson

Wednesday, August 19th, 2026 from 12:00 to 1:00 pm CDT

Construction Admin and RPR Best Practices

The construction phase is often the most dynamic and risk-sensitive stage of a project, and Construction Administration (CA) and Resident Project Representative (RPR) services are essential to the successful delivery of water and wastewater projects. Effective CA and RPR services provide the framework necessary to manage project risks, facilitate communication, document progress, and verify compliance with contract requirements. A panel of Young Professionals will discuss the various aspects of the construction phase including:

- Site Safety
- Testing Requirements
- Field Reports and Documentation
- Contractor-RPR Relationship
- Federal Funding Compliance
- Project closeout

All attendees will be entered in a drawing for the chance to win a \$25 Amazon gift card at the end of the webinar
